

Dear K. Nicole Mitchell,

My name is Tracy True love and I have written you before about my situation. My P.O. wrote me recently in response to me writing you. The time frame of events he stated as they transpired are incorrect. I will be brief because I know you are probably tired of me writing to you about this. On January 4th I was booked into Upshur County jail on a state jail felony. Between January 20th and the 30th I tried to post bond. The bonding agency told me I had a federal No bond hold. This is still January mind you. I had no other charges pending at this point in time period. On February 27th I was arraigned on these charges in Gregs County. That's nearly one whole month after my federal hold for violating my supervised release. I left Upshur County on March 19th. They P.R. bonded me from there.

County releasing their hold.
The U.S. Marshals should
have at this point taken
me into custody. Because
I'm sure January comes
before february. It is not
my fault Gregg Count were
the one's to take me into
custody. I'm sure all of
these dates to prove I'm
correct are on the computer.
I am at yall's mercy. That
is what im asking for is
mercy and compassion concerning
my situation. The County
here is telling me they are
not moving forward under any
circumstances. Is my time here
counting for yall?

I am indigent and need a
federal public defender please.
To represent my violation of
supervised release. ~~case~~
Criminal action No. 6:20-CR-1

Sincerely,
Tracy Jamelore
